

TELSTRA MOBILE BROADBAND SHARED DATA PLANS

Shared Data Plans enable Telstra Mobile Broadband to be accessed by multiple users in your business in a simple and stress-free way. These plans offer a single data allowance that can be accessed and shared by your employees, reducing administration time, concerns over individual users exceeding their monthly data allowances and improving the ability to manage your costs. There are generous Shared Data Plans to choose from on 24 month plans. Options to add additional Shared Data Plan users, either as a Standard additional user for a 24 month term, a Member Plan User for a 24 month contract term, or as a Casual additional user, are also available.
